

*A member of NATO since April 2023, Finland is shaping its naval/maritime capabilities. The building of four Pohjanmaa class multi-role corvettes – under the auspices of Project LAIVUE 2020 (Squadron 2020) – will provide the fleet with capability in the field of readiness and power projection. Naval Forces takes a close look at a major building programme that is expected to be completed in 2029, with effects on Finland's role as a contributor to maritime security and stability in the Baltic Sea region.
